## **Default Question Block**

Please help us find out more about how to best implement silent reading in a K-12 school. For the purposes of this study, silent reading is defined as independent reading of self-selected books for pleasure that may occur in the home or at school.

You have been asked to participate, as you are a teacher at Queenwood. There is limited current research that identifies barriers of daily silent reading and thus, this research can potentially provide a crucial foundation for future growth in this area. Your participation is greatly appreciated, and the responses you share will remain completely anonymous. The survey should take less than 10 minutes of your time to complete.

The principal of your school has consented for the school to be involved in this project. For further information about this study, please read the Teacher Information Letter <a href="here">here</a>.
